

3.4.1

Extension activities are carried out in the neighbourhood community, sensitizing students to social issues, for their holistic development, and impact thereof during the year.

1. Workshop on Nursery Management

For making earth green, a workshop on nursery management was conducted. More plantation and protecting forests will start from nursery management. A vermicomposting is essential part which assist the plant growth and therefore basics of vermicomposting was discussed in this workshop. Techniques of growing plant in an open environment, maintaining a good quality of plants and protecting the plants from pests and diseases were discussed.

2. Natural Color Making Workshop

Festivals in India use play of colors mainly in "Holi". For making these colors, chemicals are used which have hazardous effects. In order to avoid this, students were motivated to make colors from different herbs and plant leaves. These colors are distributed to people.

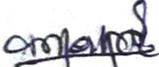

3. Seed Ball Preparation

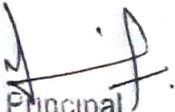

Seed balls are one of the techniques to grow the plants in inaccessible areas. Seeds of various trees and plants are collected, dried and used to make seed balls. By involving students in preparing Seed Balls and distributing them among the students, teaching and non-teaching staff awareness was created about a better environment among the public, in an innovative manner.

4. Butea-monosperma (Palash Tree) Conservation

An activity continues from last year in which article written by a faculty member Dr. P. A. Theng on medicinal importance and uses of palash tree. An article is circulated in nearby community with the help of student. This helps to stop cutting and uprooting the palash trees because of blind faith.
