4. The Conclusion

Microsoft Excel is a program that gets mainly used for calculations and data entry. It is immensely essential that one acquires relevant knowledge on the basics of the program before settling down to use it. This helps to avoid mistakes and hence feeding or retrieving the wrong information. It also calls for a lot of seriousness and cares to avoid mistakes that could lead to distortion of the required information.

A spreadsheet as a collection of information distributed in columns and rows enhances the possibility of making calculations in a faster and more accurate way. Numbers, text, and formulas can be put together and presented in a fancy and attractive manner so it could be easy to understand the meaning behind the numbers.

MS Excel

Report

From January 7 to February 13, 2019, the college's department of computer science offered a 30-day certificate course in MS-Excel under the direction of Honorable Principal Dr. H. G. Patil. Daily offline lectures consisted of one hour. The student was assisted by knowledgeable professors from the computer science department. Together with syllabus subjects, emphasis was placed on practical. The college students' participation in this course was a notable response. In addition to these, pupils were required to learn how to use a computer and MS-Excel and explained and demonstrated to students how to solve basic math problems, format documents, create analysis tables, store all data in one location, etc. The interim professors from the Department of Computer Science were in charge of leading the session, making the proposal of thanks, and making all technological arrangements.

Report

Under the direction of Honorable Principal Dr. H. G. Patil, the college's department of computer science held a 30-day certificate course in MS-Word from 3 January to 8 February 2018. Daily offline lectures consisted of one hour. The student was assisted by knowledgeable professors from the computer science department. Together with syllabus subjects, emphasis was placed on practical. The college students' participation in this course was a notable response. Students were also required to learn how to use a computer and MS-Word aside from these. Also, students prepare their resume, documents, records and a letter to another person. The interim professors from the Department of Computer Science were in charge of leading the session, making the proposal of thanks, and making all technological arrangements.
