Date and Venue: 16/09/2020, Dept. of Zoology, Shri. Shivaji Arts, Commerce & Science College, Motala, Dist. Buldana.

Description:

On the occasion of World Ozone Day, Dept. of Zoology and Dept. of Botany organized the online Lecture on Google meet.

A number of commonly used chemicals have been found to be extremely damaging to the ozone layer. Halocarbons are chemicals in which one or more carbon atoms are linked to one or more halogen atoms (fluorine, chlorine, bromine or iodine). Halocarbons containing bromine usually have much higher ozone-depleting potential (ODP) than those containing chlorine. The man-made chemicals that have provided most of the chlorine and bromine for ozone depletion are methyl bromide, methyl chloroform, carbon tetrachloride and families of chemicals known as halons, chlorofluorocarbons (CFCs) and hydrochlorofluorocarbons (HCFCs).

For creating awareness about Ozone layer, their importance and applications given through the lecture given by Dr. A.C. Thakur, H.O.D., Dept. of Zoology, and Dr. P.A. Theng, H.O.D., Dept. of Botany.

Title of Activity: - “National Level Online Poster/Painting/Rangoli Competition”

Date & Venue: 02 Oct to 08 Oct 2020, Dept. of Zoology

Description:

On the occasion of Wildlife Week celebration from 2 Oct to 8 Oct 2020, Dept. of Zoology organized online state level Poster/Painting/Rangoli Competition on the themes my favorite zoo animal and save Wildlife animals. Total 62 Participants participated in this State Level Poster/Painting/Rangoli Competition. National Wildlife Week is held from October 2 to October 8 every year to spread the message of protecting and preserving India's flora and fauna. This year, Indians will celebrate the 68th edition of Wildlife Week. In 1952, the Indian Board of Wildlife conceived the concept of Wildlife Week to generate awareness about the long-term goals of safeguarding India's wildlife. The Indian Board of Wildlife observed the first Wildlife Day in 1955. They then converted it to Wildlife Week in 1957. Fauna plays a critical role in maintaining nature's ecological balance. Any damage to it might threaten the ecology. India observes Wildlife Week because it is a biological hotspot supporting various animal species that deserve protection. India is home to nearly 7% of the world's biodiversity despite covering only 2.5% of the earth's land. So, every life is important in nature for balancing the ecosystem for this reason we celebrate Wildlife Week to protect fauna or animal life and create the awareness among the student as well as society.

World Environment Day is celebrated on June 5 every year. The importance of this day is to create awareness among people about environment. Environment is very important for us because from this environment we get the things that humans need like fruits, flowers, food, fuel, etc. Similarly, all living creatures and humans get pure oxygen which is very necessary for life. Also, the environment provides us with water for drinking and daily use, wood for building houses, etc. The environment provides the resources you need. All living things and their environment are interdependent. Human life depends on five elements. Like ground water fire air human being is an integral part of environment. Because humans have developed the environment, they want by using their intelligence. But today modernization is harming the environment. The relationship between humans and the environment is always changing. Before modern technology, man lived a very simple life. But as man progressed, he started to degrade the environment. Today, the population is growing at a large rate. Due to the increase in population, the needs of human beings have also increased to a great extent. Humans have started clearing forests and cutting down trees to build houses, so the lives of animals are in danger. Due to deforestation, the human population has increased and the balance of the environment has been disturbed. Dr. Shirbhate sir gave in-depth information about the environment to the students that many pollution problems have also started to arise due to this. This year in view of the outbreak of Corona, an online webinar was organized by the Department of Zoology in Sri Shivaji College of Arts and Commerce. Dr.

पर्यावरण वाचविणे काळाची गरज : डॉ.मिलिंद शिरभाते

बुलडाणा, १५ जून (मुंड डेव्हिनिंग सिटी)

स्थानिक क्षेत्राची कला, वाणिज्य व विज्ञान महाविद्यालय मोठाळा येथे दिनांक ११ जून २०२१ रोजी जागतिक पर्यावरण दिवसाच्या निमित्ताने प्राणशक्ती विभागातर्फे राज्यस्तरीय स्तरीय चे आयोजन करण्यात आले होते.दरवर्षी ५ जून रोजी जागतिक पर्यावरण दिन साजरा करण्यात येतो. पर्यावरणाबाबत लोकांमध्ये जागरूकता निर्माण व्हावी वसती या दिवसाचा महत्त्व आहे. पर्यावरण आपल्यासाठी खूप महत्त्वाचे आहे कारण या पर्यावरणातून मानवता आरंभक असलेल्या गोष्टी प्राप्त होतात जसे की फळ, दुग्ध, भोजन, ईंधन इ . त्याचप्रमाणे सर्व सजीव सुटीला आणि मानवता जीवन जगण्यासाठी अत्यंत आवश्यक असलेले शुद्ध ऑक्सिजन हे पर्यावरणातूनच मिळते. जसेच पर्यावरण आपल्याला पिण्यासाठी व दैनंदिन वापरासाठी वजुत असलेले पाणी, जे बांधण्यासाठी लागूत इ. सर्व काही देते. याचा उपरोक्त मानव आपल्या दैनंदिन जीवनामध्ये करते. पर्यावरण आपणसि आवश्यक असलेले संसाधने पुरवते. सर्व सजीव व त्यांचा भोजनीय

पर्यावरण एकत्रितपणे पावलेची असतात. मानवाचे जीवन हे पंच-तत्वांवर अवलंबून आहे. जसे की भूमी, जल, उर्जा, आकाश आणि वायू. मानव हा पर्यावरणातील अविभाज्य घटक आहे. कारण मानवने आपल्या बुद्धिमत्तेचा वापर करून या पर्यावरणाकडून आपल्याला ह्या सारक विकसित करून घेतला आहे. परंतु आज आधुनिकीकरण पर्यावरणात हानी पोहचवत आहे. पर्यावरण आणि मानव यांचे करण संबंध मधुमे वद्धता असतात. आधुनिक संशोधनातून मानव अतिदल साधपणाने आयुष्य जगत होता. पण जसजशी मायसाची प्रगती होत गेली तसजशी मायसाचे पर्यावरणाचा न्याय करायला सुरुवात केली. आज मोठ्या प्रमाणात लोकसंख्याही वाढत आहे. लोकसंख्या वाढत असल्यामुळे मानवाच्या सुरवाती मोठ्या प्रमाणात वाढल्या आहेत. मानव घरे बांधण्यासाठी जंगलतोड जसेच सुधर्ची तोड करू लागला त्यामुळे प्राण्यांचे आयुष्य धोक्यात आले आहे. जंगल तोड झाल्यामुळे मानवाची बसती वाहू लागली आणि पर्यावरणाचा समतोल बिघडू लागला आहे. त्यामुळे अनेक प्रु-

थणाच्या समस्यामुळे उदरू लागल्या आहेत.पर्यावरणा विषयी सखोल माहिती डॉ.शिरभाते संतमी विद्यापीठा दिली. या वर्षी कोरोनाचा वाढता प्रादुर्भाव लक्षात घेता या स्थानिक क्षेत्राची कला, वाणिज्य आणि विज्ञान महाविद्यालयात प्राणशक्ती विभागातर्फे ऑनलाईन वेबिनारचे आयोजन करण्यात आले होते. डॉ. गुलशन रम रानी प्रमुख उपस्थिती दरमिंत विद्यापीठात पर्यावरणाची कसे कशी हे समजावून सांगितले. त्याचप्रमाणे महाविद्यालयाचे प्राचार्य डॉ.सुनील मासकर, रम रानी विद्यापीठा पर्यावरणविषयी अमूल्य मार्गदर्शन केले. कार्यक्रमाचे सूत्रसंचालन प्राणशक्ती विभाग प्रमुख प्रा. डॉ. अभय ठाकूर रानी केले, तसेच डॉ. विद्या मीरे आणि डॉ. अरुण पथरे रानी कार्यक्रमाचे आयोजन केले. महाविद्यालयाचे ज्येष्ठ प्रा. अजिंठा मेहेरकर रानी कार्यक्रमाचे आभार प्रदर्शन केले. तसेच या कार्यक्रमात महाविद्यालयातील सर्व प्राध्यापक वर्ग उपस्थित होते. त्याचप्रमाणे इतर महाविद्यालयातील प्राध्यापक वर्ग आणि विद्यार्थी रानी उत्तरी बंधुत्व उपस्थिती या कार्यक्रमासाठी उपस्थित.
